

Microbiological Growth Control

Fresh Water Treatment

Warosit®-Products

Peracetic Acid, BCDMH, Stabiliser for Na-Hypochlorite, Quat and dispersing agents, Algicide based on quat and dispersing agents

Treatment of industrial water circuits

Warosit®- / Warocid®-Products

Peracetic Acid, DBNPA, BNPD, QAV, Hemiacetal, Glutaraldehyde, CMIT/MIT, Benziso

Catalase Treatment

Warosit®-/ Warostat-Products

Glutaraldehyde, Hemiacetal

Broke treatment and Preservation of Pulp and Thick Stock, Starch, Slurries and Coating Colours

Warosit®- / Warostat- / Warocid®-Products

CMIT/MIT, BNPD, DBNPA, Glutaraldehyde, Hemiacetal, Benziso

Biodispersants

Warodisp®-Products

Fatty alcohol ethoxylate, non-foaming, comply with BfR 36 and FDA

Control of Troublesome Substances

Wire-, Felt-, and Roll-Treatment and Treatment of Thick Stock

Warospere-/Warocat-
Products

Dicy, PEI, PolyDADMAC, Polyamines with different
molecular weights

Dispersants / Control of Anorganic Trash / Scale Control

Warodisp®-Products

Malic acid, Aqueous solution of special alkali-phosphonates,
Polyacrylate, modified polyacrylic acid

Enzymes for Starch Degradation

Warozym A-Products

Fungal Amylase, Bacterial Amylases with different
concentrations

Enzymes for Fibermodification

Warozym FM-Products

Cellulases to increase strength and drainage properties with
different concentrations

Cleaning Agents

Waroclean®-Products

Acid and Alkaline Cleaning Agents for system- and foam
cleaning, Neutral Solvent Cleaner (APEO-free), Cleaning
Enhancer (Additive, APEO-free)

All above mentioned cleaning agent formulations may be used adequately diluted for wire and
felt cleaning

Defoamers/Deaerators for the Pulp and Paper Industry and for Waste Water Treatment

Warofoam®-Products /
(water based)

Emulsion of organic hydroxy compounds, fatty acid esters
and surfactants

Warofoam®-Products /
(Blends)

Blend of polyalkoxylate copolymers, blend of
polyglycolesters and polyalkoxylate copolymers, blend of
polyglycolesters

Warofoam®-Products
for the Pulp Industry /
Silicone defoamers

Emulsion based of dimethylpolysiloxan

Polymers for the Paper Industry and for Waste Water Treatment

Waropol-Products

Powder polymers, Liquid polymers

Warofloc®-Products

Coagulants

Probiotic concentrates for the treatment of industrial water cycles

Waropure®-Products

Probiotic concentrates for small to midsize and large
volume applications
